Lab 4: Bootloader

Your task

- Boot pragma linux with bochs
- Make a bootloader that displays your name, email address, your favourite second year module, date of birth and age. and student number on separate lines. (up to 3/5 marks)
- Make a bootloader that displays a triangle of dots as well as student information (up to 5/5 marks)

Evidence

- Screenshot of bochs running pragma linux
- Source code sensibly commented for your bootloader (triangle or student details or both together)
- Screenshot of your running bootloader showing triangle, student details or both together
